NORWAY MEN ALLOWED TO CUT WOOD NOW

(By Associated Press.)

Christiania, Norway, Sept. 12.—A bill just passed by the Norwegian legislature permits men of military age to choose whether they will serve their regulation period with the colors or go to wood-cutting in the government forests. Every man in Norway is obliged to do forty days' military drill, but this year owing to the scarcity and expensiveness of imported fuel—coal and coke—much labor will be required in the public and private forests for the felling and cutting of timber and it is intended to utilize the service of the soldiers for this purpose and for the cutting of peat.

Laborers' wages in the big industrial centers have risen to an abnormal height since the beginning of the European war and consequently men have been attracted from the country districts, so that the new legislation is regarded as a boon by the proprietors of wooded land. The soldier-foresters are to be paid the ordinary wages of country laborers less twenty per cent, and a large proportion of this year's class of soldiers have signified their intention of wielding the axe and the saw instead of the rifle and bayonet.

In some quarters it is proposed to extend this scheme and place the recruits to work at railroad building, which is much needed. All the railroads are owned and run by the government and plans have been made for the construction of a main line across the country and a local line along the coast. Delay has been caused by the lack of labor, but it is hoped by means of the new legislation to overcome this.

CUTTING BELGIAN TREES

(By Associated Press.)

Paris, Sept. 12.—Many of the fine old trees of Belgium are being cut down for use in the German trenches. The famous Bois de la Cambre near Brussels is said to have lost 10,000 of its trees, and lesser parks and woods are yielding their proportion.

LIKES HICKORY SECTION

Mr. F. H. Allen of Rockwell City, Iowa, who has been in the city and section for the past few days, left today for his home. He is in the creamery and produce business and came here to look over the situation. Mr. Allen said the more he saw of Catawba county, the better he liked it, and it is not improbable that he will come here to live.

Dr. Flowe Married

Friends of Dr. B. B. Flowe, son of Mrs. M. L. Flowe of Hickory will be interested in his marriage last Tuesday to Miss Evelyn Randolph Corbin of Winston-Salem, as told in the following special:

Winston-Salem, Sept. 9.—A marriage of wide spread interest was solemnized in the Home Moravian Church Tuesday evening when Miss Evelyn Randolph Corbin, daughter of Mrs. T. A. Corbin, was wedded to Dr. Burtlett Berrv Flowe of Raleigh, Bishop Edward Rondthaler performing the ceremony.

Mrs. Flowe came here with her parents six years ago from Havana, Cuba, and was graduated from Salem College, entering immediately upon educational work of the State.

Dr. Flowe is a native of Charlotte and is associated with the State extension work in Raleigh. After an extended tour West, Dr. and Mrs. Flowe will reside in Raleigh.

TWO DISCS IN FUTURE

(By Associated Press.)

London, Sept. 12.—In the future each officer and soldier will be supplied with two identity discs, to be suspended from the neck. Though no explanation of the order for the innovation is given, it is thought that the idea is to use the second disc for the preservation of the identity of a body, after the first is removed for the purpose of the casual list. The record disc will be suspended by six inches of cord from the upper, the former being red and the latter green.

Heater**

Your Money Back!

You get back the original cost of your stove in the fuel money saved each winter. Could you ask for more!

1. We guarantee a saving of one-third in fuel over any lower draft stove of the same size, with soft coal, lignite or slack.

2. We guarantee Cole's Hot Blast to use less hard coal for heating a given space than any base burner made with same size firepot.

3. We guarantee that the rooms can be heated from one to two hours each morning with the fuel put in the stove the evening before.

4. We guarantee that the stove will hold fire with soft coal or hard coal from Saturday evening to Monday morning.

5. We guarantee a uniform heat day and night with soft coal, hard coal or lignite.

6. We guarantee every stove to remain absolutely air-tight as long as used.

7. We guarantee the feed door to be smoke and dust proof.

8. We guarantee the anti-puffing draft to prevent puffing.

All we ask is that the stove be operated according to directions and connected with a good flue.

MAINE VOTE DOES NOT DISCOURAGE DANIELS

Washington, Sept. 12.—Secretary Daniels, who took an active part in the Maine campaign refused to be discouraged at the early returns from the election on there.

"If the Democrats had carried Maine by even one vote," he said, "the campaign would have ended and Wilson's election would have been certain. Up to the last national election the Republicans had never failed to carry Maine by less than 28,000 and generally by 35,000 to 45,000. Even with the enormous defection of two thirds of the Republicans to Roosevelt in 1912, the Democrats just squeezed through with 2,600. The latest returns indicate that the Republicans will be lucky to get 10,000 majority this year, which shows a swing of Republicans to Wilson that will ensure us the electoral college if it is maintained by other states in November.

"The combinations of the candidates for the senate and house were so complicated by local issues, as to make this vote of small use in determining the feeling of the people on national issues, although the speed run made by McGillicuddy with no Progressive split to help him, is most encouraging."
